PRODUCT INFORMATION

Catalog number ATGA0231

Clone No. AT1E8

Product type Monoclonal Antibody

UnitProt No. Q9Y3A5

NCBI Accession No. NP_057122

Alternative Names Ribosome maturation protein SBDS, CGI-97, SDS, SWDS

PRODUCT SPECIFICATION

Antibody Host Mouse

Reacts With Human

Concentration 1mg/ml (determined by BCA assay)

Formulation Liquid in. Phosphate-Buffered Saline (pH 7.4) with 0.02% Sodium Azide, 10% glycerol

Immunogen Recombinant human SBDS (1-250aa) purified from E. coli

Isotype

lgG2b kappa

Purification Note By protein-G affinity chromatography

Application

ELISA,WB,ICC/IF

Usage

The antibody has been tested by ELISA, Western blot and ICC/IF analysis to assure specificity and reactivity. Since application varies, however, each investigation should be titrated by the reagent to obtain optimal results.

Storage

NKMAXBiO we support you, we believe in your research Human SBDS antibody Catalog Number: ATGA0231

Can be stored at +2C to +8C for 1 week. For long term storage, aliquot and store at -20C to -80C. Avoid repeated freezing and thawing cycles.

BACKGROUND

Description

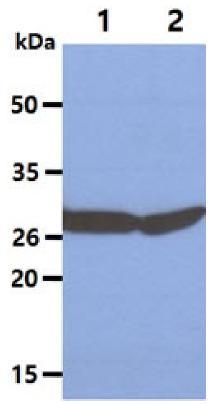

The Shwachman-Bodian-Diamond syndrome (SBDS) is 249 amino acid ribosome maturation protein. The precise function of the SBDS protein is not known but it appears to play an important role in actin cytoskeletal function and mitotic spindle stabilization. Also, SBDS is required for the assembly of mature ribosomes and ribosome biogenesis. Mutations in the SBDS gene cause Shwachman-Diamond syndrome (SDS). SDS is an autosomal recessive disorder with clinical features that include pancreatic exocrine insufficiency, haematological dysfunction and skeletal abnormalities.

DATA

Western blot analysis (WB)

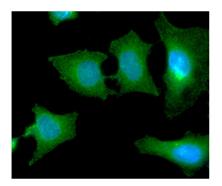

The cell lysates (40ug) were resolved by SDS-PAGE, transferred to PVDF membrane and probed with anti-human SBDS antibody (1:3000). Proteins were visualized using a goat anti-mouse secondary antibody conjugated to HRP and an ECL detection system. Lane 1.: 293T cell lysate Lane 2.: HeLa cell lysate

Immunocytochemistry/Immunofluorescence (ICC/IF)

NKMAXBiO We support you, we believe in your research Human SBDS antibody Catalog Number: ATGA0231

ICC/IF analysis of SBDS in HeLa cells. The cell was stained with ATGA0231 (1:100). The secondary antibody (green) was used Alexa Fluor 488. DAPI was stained the cell nucleus (blue).
