Human FKBP36/FKBP6 antibody

Catalog Number: ATGA0275

PRODUCT INFORMATION

Catalog number

ATGA0275

Clone No.

AT9B7

Product type

Monoclonal Antibody

UnitProt No.

075344

NCBI Accession No.

NP 003593

Alternative Names

Inactive peptidyl-prolyl cis-trans isomerase FKBP6, Inactive PPlase FKBP6, 36 kDa FK506-binding protein, 36 kDa FKBP, FKBP-36, FK506-binding protein 6, FKBP-6, Immunophilin FKBP36, peptidylprolyl cis-trans isomerase, Rotamase

PRODUCT SPECIFICATION

Antibody Host

Mouse

Reacts With

Human

Concentration

1mg/ml (determined by BCA assay)

Formulation

Liquid in. Phosphate-Buffered Saline (pH 7.4) with 0.02% Sodium Azide, 10% glycerol

Immunogen

Recombinant human FKBP6 (1-327aa) purified from E. coli

Isotype

IgG1 kappa

Purification Note

By protein-A affinity chromatography

Application

ELISA, WB

Usage

The antibody has been tested by ELISA and Western blot analysis to assure specificity and reactivity. Since application varies, however, each investigation should be titrated by the reagent to obtain optimal results.

Human FKBP36/FKBP6 antibody

Catalog Number: ATGA0275

Storage

Can be stored at +2C to +8C for 1 week. For long term storage, aliquot and store at -20C to -80C. Avoid repeated freezing and thawing cycles.

BACKGROUND

Description

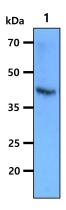

FKBP6 (FK506 binding protein 6) is a 327 amino acid protein. FKBP6 is a member of the immunophilin protein family, which play a role in immunoregulation and basic cellular processes involving protein folding and trafficking. FKBP6 is essential for homologous chromosome pairing in meiosis during spermatogenesis. FKBP6 is ubiquitously expressed in all tissues, with higher expressed in testis, heart, skeletal muscle, liver, and kidney. Deletion of FKBP6 may contribute to hypercalcemia and growth delay in Williams-Beuren syndrome.

DATA

Western blot analysis (WB)

The cell lysates(40ug) was resolved by SDS-PAGE, transferred to PVDF membrane and probed with anti-human FKBP6 antibody (1:1000). Proteins were visualized using a goat anti-mouse secondary antibody conjugated to HRP and an ECL detection system. Lane 1.: MCF7 cell lysate
