Human Aldolase A/ALDOA antibody

Catalog Number: ATGA0341

PRODUCT INFORMATION

Catalog number

ATGA0341

Clone No.

AT3F9

Product type

Monoclonal Antibody

UnitProt No.

P04075

NCBI Accession No.

NP 908930

Alternative Names

Fructose-bisphosphate aldolase A, Lung cancer antigen NY-LU-1, Muscle-type aldolase, ALDA

PRODUCT SPECIFICATION

Antibody Host

Mouse

Reacts With

Human

Concentration

1mg/ml (determined by BCA assay)

Formulation

Liquid in. Phosphate-Buffered Saline (pH 7.4) with 0.02% Sodium Azide, 10% glycerol

Immunogen

Recombinant human ALDOA (1-364aa) purified from E. coli

Isotype

IgG2a kappa

Purification Note

By protein-A affinity chromatography

Application

ELISA, WB, ICC/IF, FACS

Usage

The antibody has been tested by ELISA, Western blot, ICC/IF and FACS analysis to assure specificity and reactivity. Since application varies, however, each investigation should be titrated by the reagent to obtain optimal results.

NKMAXBIO We support you, we believe in your research

Human Aldolase A/ALDOA antibody

Catalog Number: ATGA0341

Storage

Can be stored at +2C to +8C for 1 week. For long term storage, aliquot and store at -20C to -80C. Avoid repeated freezing and thawing cycles.

BACKGROUND

Description

Aldolase (fructose bisphosphate aldolase), a glycolytic enzyme, catalyzes the conversion of fructose 1, 6-bisphosphate to 3-phosphoglyceraldehyde. This ubiquitous enzyme is present as three different isozymes: aldolase A, aldolase B, and aldolase C. Research studies suggest that aldolase A expression potentially differentiates between nonneoplastic liver diseases and hepatocarcinoma. Aldolase A is found in the developing embryo and is produced in even greater amounts in adult muscle. Aldolase A expression is repressed in adult liver, kidney, and intestine and similar to aldolase C levels in brain and other nervous tissue.

DATA

Western blot analysis (WB)

The Recombinant protein and Cell lysates (40ug) were resolved by SDS-PAGE, transferred to PVDF membrane and probed with antihuman ALDOA antibody (1:1000). Proteins were visualized using a goat anti-mouse secondary antibody conjugated to HRP and an ECL detection system.

Immunocytochemistry/Immunofluorescence (ICC/IF)

Human Aldolase A/ALDOA antibody

Catalog Number: ATGA0341

ICC/IF analysis of ALDOA in A549 cells. The cell was stained with ATGA0341 (1:100). The secondary antibody (green) was used Alexa Fluor 488. DAPI was stained the cell nucleus (blue).

Flow cytometry (FACS)

Alexa 488 Anti-Aldolase A

Flow cytometry analysis of ALDOA in A549 cell line, staining at 2-5ug for 1×10^6 cells (red line). The secondary antibody used goat antimouse IgG Alexa fluor 488 conjugate. Isotype control antibody was mouse IgG (black line).
