

Recombinant human BIGH3/TGFBI protein

Catalog Number: BIG0601

PRODUCT INFORMATION

Expression system

E.coli

Domain

502-636aa

UniProt No.

Q15582

NCBI Accession No.

NP_000349.1

Alternative Names

Transforming growth factor-beta-induced protein ig-h3, Beta ig-h3, Kerato-epithelin, RGD-containing collagen-associated protein, RGD-CAP, BIGH3, CSD3, LCD1, CSD1, CSD2, Transforming growth factor, Beta-induced, 68kD, CDB1, CDGG1

PRODUCT SPECIFICATION

Molecular Weight

14.5 kDa (135aa) confirmed by MALDI-TOF

Concentration

1mg/ml (determined by Bradford assay)

Formulation

Liquid in. 20mM Tris-HCl buffer (pH 8.0)

Purity

> 95% by SDS-PAGE

Tag

Non-Tagged

Application

SDS-PAGE

Storage Condition

Can be stored at +2C to +8C for 1 week. For long term storage, aliquot and store at -20C to -80C. Avoid repeated freezing and thawing cycles.

BACKGROUND

Description

BIGH3, also known as TGFBI and betaig-h3, is an extracellular matrix protein induced by transforming growth factor (TGF) -beta 1. BIGH3 protein is involved in cell growth, cell differentiation, wound healing and cell adhesion. In addition, some missense mutations of BIGH3 were identified in families affected with human autosomal dominant corneal dystrophies. BIGH3 gene encodes for a 683 amino-acid protein containing an RGD

Recombinant human BIGH3/TGFBI protein

Catalog Number: BIG0601

motif and four internal repeated domains which have highly conserved sequences founded in several species (Fasciclin domain). Recombinant human BIGH3 protein (fourth FAS domain) was expressed in E. coli and purified by using conventional chromatography techniques.
