PRODUCT INFORMATION

Expression system E.coli

Domain 18-247aa

UniProt No. Q60994

NCBI Accession No. NP_033735

Alternative Names

ADIPOQ, Acdc, Acrp30, Apm1, 30 kDa adipocyte complement-related protein, Adipocyte complement-related 30 kDa protein, Adipocyte C1q and collagen domain-containing protein, Adipocyte-specific protein

PRODUCT SPECIFICATION

Molecular Weight

27.2 kDa (251aa) confirmed by MALDI-TOF

Concentration

1mg/ml (determined by Bradford assay)

Formulation

Liquid in. 20mM Tris-HCl buffer (pH 8.0) containing 1mM DTT, 10% glycerol

Purity > 90% by SDS-PAGE

Endotoxin level < 1 EU per 1ug of protein (determined by LAL method)

Tag His-Tag

Application SDS-PAGE

Storage Condition

Can be stored at +2C to +8C for 1 week. For long term storage, aliquot and store at -20C to -80C. Avoid repeated freezing and thawing cycles.

BACKGROUND

Description

Adiponectin is an adipocyte specific secreted protein that circulates in the plasma. It is induced during adipocyte differentiation and its secretion is stimulated by insulin. Mouse adiponectin shares about 83% amino acid identity with that human. Adiponectin plays a role in various physiological processes such as energy

NKMAXBio we support you, we believe in your research Recombinant mouse Adiponectin/Acrp30 protein Catalog Number: ADI0702

homeostasis and obesity. Adiponectin is reduced in obese humans, and decreased level is associated with insulin resistance and hyperinsulinemia. Recombinant mouse adiponectin, fused to His-tag at N-terminus, was expressed in E. coli and purified by using conventional chromatography techniques.
