PRODUCT INFORMATION

Expression system E.coli

Domain 1-154aa

UniProt No. P02144

NCBI Accession No. NP_976312.1

Alternative Names Myoglobin, PVALB

PRODUCT SPECIFICATION

Molecular Weight 19.3 kDa (174aa) confirmed by MALDI-TOF

Concentration 1mg/ml (determined by Bradford assay)

Formulation Liquid in. 20mM Tris-HCl buffer (pH 8.0) containing 1mM DTT, 10% glycerol, 100mM NaCl

Purity > 90% by SDS-PAGE

Tag His-Tag

Application SDS-PAGE

Storage Condition

Can be stored at +2C to +8C for 1 week. For long term storage, aliquot and store at -20C to -80C. Avoid repeated freezing and thawing cycles.

BACKGROUND

Description

Myoglobin, mitochondrial precursor, also known as MB, is a cytosolic oxygen-binding protein responsible for the storage and diffusion of oxygen within myocytes. Expression of myoglobin is highest in skeletal and cardiac muscle. MB may serve a variety of functions in muscular oxygen supply, such as oxygen storage, facilitated diffusion, and myoglobin-mediated oxidative phosphorylation. Recombinant human MB protein, fused to His-tag at N-terminus, was expressed in E. coli and purified by using conventional chromatography techniques.
