

Recombinant human ALDOC protein

Catalog Number: ATGP0980

PRODUCT INFORMATION

Expression system

E.coli

Domain

1-364aa

UniProt No.

P09972

NCBI Accession No.

NP_005156

Alternative Names

Aldolase C fructose-bisphosphate., Aldolase C, fructose-bisphosphate., ALDC

PRODUCT SPECIFICATION

Molecular Weight

41.6 kDa (384aa) confirmed by MALDI-TOF

Concentration

1mg/ml (determined by Bradford assay)

Formulation

Liquid in. 20mM Tris-HCl buffer (pH 8.0) containing 10% glycerol, 2mM DTT, 0.1M NaCl.

Purity

> 95% by SDS-PAGE

Tag

His-Tag

Application

SDS-PAGE

Storage Condition

Can be stored at +2C to +8C for 1 week. For long term storage, aliquot and store at -20C to -80C. Avoid repeated freezing and thawing cycles.

BACKGROUND

Description

ALDOC, also known as aldolase C, is a member of the class I fructose-biphosphate aldolase family. This protein is a glycolytic enzyme that catalyzes the reversible aldol cleavage of fructose-1, 6-biphosphate and fructose 1-phosphate to dihydroxyacetone phosphate and either glyceraldehyde-3-phosphate or glyceraldehydes respectively. It is expressed specifically in the hippocampus and Purkinje cells of the brain. Recombinant human ALDOC protein, fused to His-tag at N-terminus, was expressed in E. coli and purified by using conventional chromatography techniques.
