

Recombinant human LIN-7A protein

Catalog Number: ATGP1757

PRODUCT INFORMATION

Expression system

E.coli

Domain

1-233aa

UniProt No.

O14910

NCBI Accession No.

NP_004655

Alternative Names

Protein lin-7 homolog A, LIN-7A, LIN7, MALS-1, TIP-33, VELI1, Mammalian lin-seven protein 1, Tax interaction protein 33, Vertebrate lin-7 homolog 1

PRODUCT SPECIFICATION

Molecular Weight

28.4 kDa (256aa) confirmed by MALDI-TOF

Concentration

0.25mg/ml (determined by Bradford assay)

Formulation

Liquid in. 20mM Tris-HCl buffer (pH 8.0) containing 0.1M NaCl, 10% glycerol, 1mM DTT

Purity

> 90% by SDS-PAGE

Tag

His-Tag

Application

SDS-PAGE

Storage Condition

Can be stored at +2C to +8C for 1 week. For long term storage, aliquot and store at -20C to -80C. Avoid repeated freezing and thawing cycles.

BACKGROUND

Description

Lin7A, also as known as MALS1 or VELI1, belongs to the lin-7 family. This protein contains 1 L27 domain and 1 PDZ (DHR) domain. It plays a role in establishing and maintaining the asymmetric distribution of channels and receptors at the plasma membrane of polarized cells. The tripartite complex composed of LIN7 (LIN7A, LIN7B or LIN7C), CASK and APBA1 may have the potential to couple synaptic vesicle exocytosis to cell adhesion in brain. Lin7A is expressed in brain, testis, kidney, placenta and liver. Recombinant human Lin7A protein, fused to His-
